

MORNING

Description:

Our boat leaves early, as soon as the boatman can navigate in the pre-dawn light. Speed down the Brunei River and across the calm water of inner Brunei Bay as the sun begins to rise. Reach Selirong Island early, when the natural habitants are active and you are most likely to encounter the amazing array of wildlife living amongst its tangle of mangroves, vines, palms and trees.

Selirong Forest Recreation Park is preserved solely for outdoor recreation, research and nature education. This mangrove wonderland is a breeding ground for the marine life that populates Brunei Bay. It is also a bird-watcher's delight.

Walk quietly along the almost 2 km of elevated concrete walkways. Stop to hear and look for the unique mammals, resident and migratory birds, bats, reptiles, fish, crustaceans, and of course, proboscis monkeys. You may even see a green turtle or salt water crocodile in the mangrove channels.

Learn about the island's unique eco-system and where to look for the wildlife as you move along the waterway channels and elevated walkways. As the sun climbs high in the tropical sky, and the animals retreat to find shelter, we follow their example, either returning back across inner Brunei Bay to our Brunei river base. Or to link Brunei River, or link with other boat based trips and activities.

Optional breakfast (own choice & cost) beside the Brunei River following the return trip at either Mangrove Paradise Resort (Halal) or RBYC Kota Batu (Non- Halal).

We will provide:

- An open viewing boat with shade canopy
- Experienced English & Malay speaking boatman
- Life-jackets (PFD-1) - child sizes available
- Replenishment drinking water (Please do not bring disposable or single-use mineral water bottles)

Code: ITD-M3BB

(with optional dinner stop)

AFTERNOON

Description:

Our boat departs mid afternoon, as the day begins to cool. Speed down the Brunei River and across inner Brunei Bay in the afternoon breeze. Reach Selirong Island as the day cools, the natural habitants become more active and you are most likely to encounter the amazing array of wildlife living amongst this tangle of mangroves, vines, palms and trees.

Selirong Forest Recreation Park is preserved for outdoor recreation, research and nature education. This protected mangrove wonderland is a breeding ground for the marine life that populates Brunei Bay and Brunei River. It is also a bird-watcher's delight.

Walk quietly along the almost 2 km of elevated concrete walkways. Stop to hear and look for the unique mammals, resident and migratory birds, bats, reptiles, fish, crustaceans, and of course, proboscis monkeys. You may even see a green turtle or salt water crocodile in the mangrove channels.

Learn about the island's unique eco-system and where to look for the wildlife as you move along the waterway channels and elevated walkways. As the sun progresses towards a tropical sunset, we return to our boat to ride across Brunei Bay, enjoying the afternoon breeze and sunset colours.

Optional dinner (own choice & cost) beside the Brunei River following the return trip at either Mangrove Paradise Resort (Halal) or RBYC Kota Batu (Non-Halal).

We will provide:

- An open viewing boat with shade canopy
- Experienced English & Malay speaking boatman
